

# Partnerships & Collaborations

Last Updated: November 2025

## Together, We Create Impact

At Accordia Harmony C.I.C., we believe that lasting change happens through collaboration. Partnerships are at the heart of everything we do because they allow us to reach more young people, strengthen communities, and deliver meaningful learning experiences that transform lives.

We welcome partnerships with schools, youth organisations, employers, charities, and investors who share our vision of preparing young people aged 17 to 21 for confident and independent living.

## Why Partner with Us

### Shared Purpose

Join a mission-driven organisation dedicated to equipping young people with the skills, confidence, and mindset needed to thrive in life and work.

### Measurable Social Impact

As a registered Community Interest Company, we reinvest our profits into youth development programmes. Every partnership directly contributes to tangible outcomes that improve lives.

### Access to Innovation

Collaborate with a creative team developing digital learning platforms such as LifeSkills Connect, Skill Forge, and Playground. Each platform combines education, technology, and community engagement to create meaningful results.

### Brand Alignment and Visibility

Partnerships are recognised across our digital platforms, communications, and events. Your organisation's involvement demonstrates a genuine commitment to youth empowerment and social progress.

### Flexible Collaboration Models

We understand that every partner is unique. Whether you represent a school, business, or charity, we create collaboration frameworks that reflect your goals and community values.

## Partnership Opportunities

### Educational Institutions

Partner with us to integrate our learning modules into enrichment or transition programmes. We provide schools and colleges with resources that complement classroom learning and prepare students for life beyond school.

### Employers and Industry Partners

Work with us to bridge the skills gap by creating workshops, mentorship opportunities, and career pathways that help young people connect to real-world employment.

### Community and Youth Organisations

Collaborate with us on outreach initiatives, local projects, and community events that promote wellbeing, digital literacy, and independence.

### Funders and Investors

Support sustainable impact by funding modules, research, or digital expansion. Your contribution helps us reach more young people and deliver long-term community benefit.

### Our Partnership Approach

Every collaboration begins with a shared vision and mutual respect. We build partnerships on transparency, trust, and measurable outcomes. From our first conversation to the delivery of joint projects, we align our efforts with your goals to ensure meaningful social impact.

## Get Involved

We are always open to new collaborations that empower young people and strengthen communities.

To discuss partnership opportunities, please contact our team:
